

ORANGE GARDEN TOUR

TOUR DATE: OCTOBER 5, 2024

INTRODUCTION

Orange Garden Tour

The Orange Garden Tour (OGT) has been created to instigate community connection and inspire beautiful landscape design in an attainable way. By living and working in Old Towne Orange we have formed bonds of friendship within the community and develop a deep love and respect for its architectural & landscape beauty. It is out of this love for Orange that we thought it natural to create an event that encompasses both.

The tour will explore charming homes, businesses and institutions that represent quality design and will inspire visitors to create beauty in their own spaces causing a ripple through our city's beautification.

Our goal is to tap into other seasons of the garden evolution and explore a garden tour that happens in the Fall. What better time than to show how even transitioning gardens can look beautiful all year long. We would also like to share garden sustainability techniques that keep our gardens annually vibrant. The OGT is looking for quality gardens that use a variety of design inspiration, that are livable, relatable, and promote water wise practices when possible.

The event will be one-day with up to 6-8 host locations depending on proximity. Check-in and opening activities will occur in the morning of the event at Orange Home Grown. Closing and host reception will occur in the late afternoon at The Potting Shed. We are planning for docent assistance as well as an opportunity of creating vendor pop-ups at host locations with allowable space.

All proceeds for 2024 will go towards the Orange Home Grown Educational Fund. Funds will be raised through sponsorship, donors and ticket sales so please spread the word.

We hope you will join us in this beautiful new adventure!

PARTICIPANT INFORMATION

APPLICATIONS

Applications shall be returned to Terrain Integration by mail, hand delivered or emailed by June 1st, 2024. Applicants who apply earliest have better chance of being accepted for the 2024 tour. There will be only 6-8 gardens accepted, so do not delay.

SAFETY

1. Structures such as pergolas, gazebos, fencing, gates, etc. should be safe, and structurally secure.
 2. Wiring to operating mechanisms, such as water features or lighting, should not be exposed to visitors.
 3. Walkways utilized by patrons shall be walkable and mostly smooth with minimal tripping obstructions.
-

INSPECTIONS & APPROVAL

The garden tour committee will inspect all gardens on a rolling basis to determine if each garden is a candidate for the tour. A committee member will notify each garden owner within 2 weeks of inspection if they have been chosen for the tour.

COMMITMENT

Once a garden has been committed to the tour, participants must notify the garden tour committee of any changes that are made to the garden that will impact the design in a measurable way. Approvals are based on existing conditions upon the date of approval. Future planned designs may be discussed with committee and once in place, the committee can review the garden again. If large changes occur that greatly impact the initial garden design the participant has the opportunity to be deferred to the following years tour- under the discretion of the committee.

COMMUNICATIONS

All participants are encouraged to attend Informational Receptions, visit the website and follow social media postings to stay up to date on the continued organizing of the event. The garden tour committee may reach out to participants directly in order to inform them of changes and organizational events.
